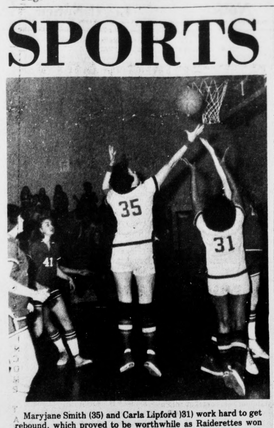
SPORTS



Marvjane Smith (35) and Carla Lipford (31) work hard to get rebound, which proved to be worthwhile as Raiderettes won their first tournament game.

Shown above, from left to right, are Mary Libby Tolley, coach; Cecil B. Tillery, principal at ACHS; Maryjane Smith and Mrs. Louise Martin, head coach of the Raiderettes. Mr. Tillery presented Maryjane with the game ball Saturday night when she hit the 1,000 mark.

BREAKS 1,000 MARK

In last Saturday night's tournament game when the Appomattox Raiderettes took on Jefferson Forest, Maryjane Smith went over 1,000 points in her high school basketball career.

Only two other girls in the Seminole District have reached the 1,000 mark. They are Betty Sue Hodock of Nelson and Leonda Hudson, a former Raiderette player. Both of these girls broke 1,000 in their senior year, which means that Maryjane has quite an achievement, as she is only a junior at ACHS.

The district record is 1128 held by Leonda Hudson. Maryjane has 1002, and has a very good chance of breaking the record next year.

Raiderettes Win 1, Lose 1, In Tournaments

After a hard fought game in Brookville last Tuesday night, Appomattox finally came out on top of Rustburg 32-23. The first half was neck and neck as the first quarter ended 8-6, and the 2nd quarter ended 14-12. Rustburg leading both.

Something sparked the girls though as they blasted back in the 3rd quarter with 10 points to make the score 24-18. The Raiderettes held their lead through the remaining portion of the game.

Maryjane Smith was leading scorer with 16 points. Other Raiderettes who scored were Jan Stanley with 6, Cindy Smith with 4, Debbie McIvor, Carla Lipford, and Connie Murray, all with 2.

In the second tournament series, the Raiderettes fought very hard but weren't able to take on Jefferson-Forest, the No. 1 team as they were overcome by a score of 55-41.

The first quarter ended in a toss up, 8-8, and the half ended with a score of 24-17.

It seemed the Raiderettes couldn't match up to the No. 1 team as Jefferson Forest broke open the 3rd quarter 40-27.

High scorer for the Raiderettes was Maryjane Smith with a big 31 points. Carla Lipford and Jan Stanley each had 4, and Connie Murray had 2.

Connie Murray (14) dribbling down the court with ease at Brookville during the tournament, as the Raiderettes downed Rustburg 32-23.

Youth Association

The Appomattox County Youth Association met Thurs., Feb. 13. Officers were elected for the new year. They are President, Fred Weakley: Executive Vice-President, Billy Chenault; Vice-President Babe Ruth Baseball, Albert Harvey; Vice-President Major League Dixie Youth Baseball, Sammy Carter; Vice-President Minor League Dixie Youth Baseball, Nelson Mann; Vice-President, Football, Jimmy Mayberry; Vice-President Basketball, Billy Thompson, Treasurer, June Chenault; Secretary, Dick Smith.

Registration for all baseball groups will be held March 1 and March 8. Registration will be held at the following places from 10 a.m. to 12 noon. Oakville School, Pamplin Ballpark, and the W.O.W. Ball Field. The cost of registration is $3.00. All new players must bring a photostatic copy of their birth certificates. Ages are 8 through 15.

All players who have not yet turned in their uniforms must bring their uniforms to one of the registration places, March 1.

The next meeting of the Youth Association will be held on Wed., March 12 at 7:30 p.m. at the Fidelity National Bank.

...does not mean no ...convenience to the ...that frost forms on ...or coils or plates ...ide of the storage ...t. This is accom-...the use of a fan ov...ew cold air through ...

Any warm air or ...picked up as the air circulates and then on contact with the evaporator coil, frost forms. The frost that collects is removed automatically. None accumulates on food packages or on the inside of the freezer so no manual defrosting is ever necessary.

Placement of evaporator (cooling) coils varies with different models. In chest freezers coils often are in the walls and/or some may be shaped into large plates which serve as space dividers. There may be separate flash-freezing section with extra coils.

Frost lowers freezer efficiency and increases operating costs as well as reducing the space available for food packages. One aid in limiting frost build-up is to open the freezer only when necessary. Another is to scrape off soft frost regularly before it builds up.

A thorough defrosting is generally needed when frost is 1/2 inch thick. Normally, this could be one or two times a year. The job of defrosting is easier when the frozen food supply is low.

To defrost, first unplug the unit. Remove food and place it in several thicknesses of paper to help prevent thawing. Take out trays, racks, and any other accessories that are removable. Then, scrape soft frost stored in a plastic spoon or wooden scraper. Never use a metal instrument or sharp tool since these might puncture the coils.

Hasten defrosting by leaving the lid or door open and using a fan to allow room air to flow through the freezer. Or, fill deep pans with warm water and place them on shelves in the appliance. Repeat the process until the ice is melted. Use sponges or heavy towels to soak up the defrost water in the bottom of the freezer.

Uprights may have a drain through which the defrost water flows to a pan at the bottom of the freezer. Many models do not.

When defrosting a chest-type freezer with a drain hole and hose, be sure to have a receptacle available to catch the water.

Whether the freezer is frost-free or regular-defrost, it needs to be cleaned thoroughly. Clean a regular-defrost model after defrosting and frost-free at least one or two times a year.

Wash sides, back and bottom of all compartments and accessories with a sponge wrung out of a solution of two tablespoons of baking soda in each quart of warm water or warm detergent or soap suds. Rinse with clear water and dry thoroughly.

Clean the gasket around the door or lid with a sudsy cloth or sponge. Remove and wash the panel at the bottom of an upright freezer. If condenser coils are exposed, use a brush or vacuum cleaner to clean them. Wash racks, trays, and baskets in warm suds. Rinse and dry before putting them back in place. Replace foods and plug in the freezer to the outlet.

In upright models, the coils may be in the walls and are more likely to be mainly in the shelves at the top of the liner. More coils are directly under some shelves for flash-freezing.

Frost, therefore, will form wherever cooling units are located. The amount that accumulates depends on how much heat is brought into the freezer when food is placed in it, when the door or lid is opened or through leaks in the wall or around the door gasket.

Receipe of the Week

Freezer Buns

5¼ to 6¼ cups unsifted flour
1/3 cup sugar
1 teaspoon salt
1/2 teaspoon grated lemon peel
2 packages active dry yeast
Confectioner's sugar
1 cup -2 sticks margarine, softened
1½ cups very warm tap water (120° 130°)
2 eggs - at room temperature

Prepare cheese filling or date-nut filling (below). Refrigerate until ready to use.

In a large bowl thoroughly mix 1½ cups flour, sugar, salt, lemon peel, and dissolved active dry yeast. Add margarine.

Gradually add tap water to dry ingredients and beat 2 minutes at medium speed of electric mixer, scraping the bowl occasionally. Add eggs and 1/2 cup flour. Beat at high speed 2 minutes, scraping bowl occasionally. Stir in enough additional flour to make a soft dough. Cover, let rest 20 minutes.

Turn dough out onto well floured board. Divide into 3 equal pieces. Roll each piece to an 8-inch square. Cut each into 8 1-inch strips. Twist each strip and coil into a circle, sealing ends underneath. Place on greased baking sheets. Make wide indentations in center of each coil, pressing to bottom. Spoon prepared fillings into indentations, using about 2 tablespoons cheese filling or 1 tablespoon date-nut filling for each roll. Cover loosely with plastic wrap. Freeze until firm, transfer to plastic bags Freeze up to 4 weeks. Note: These can be baked without freezing.

Remove from freezer; place on ungreased baking sheet. Cover loosely with plastic wrap. Let stand at room temperature until fully thawed, about 1 hour and 45 minutes. Let rise in warm place, free from draft, until more than doubled in bulk, about 45 minutes.

Bake at 375°F. 15 to 20 minutes or until evenly browned. Remove from baking sheets and cool on wire racks. Sprinkle with confectioner's sugar.

Cheese filling: Blend together 2 packages (8- ounce each) cream cheese softened, 1/2 cup sugar and 1 tablespoon grated lemon peel. Gradually add 2 whites, blending until smooth.

Date-Nut Filling: In a saucepan, bring 2 cups pitted dates and 1/2 cup water to a boil. Reduce heat; cover and simmer until water is absorbed, about three minutes. Stir in 1/2 cup chopped English walnuts.

Chestnut Grove

Saturday visitors of Mr. and Mrs. Bill Senger were Mr. and Mrs. Howard Johnson and Mr. and Mrs. J. K. Johnson all of Farmville.

Mr. and Mrs. Lewis Morgan of Andersonville, Mrs. Lightfoot Crews of Portsmouth were Monday visitors in the home of Mr. and Mrs. Don Harris. Mr. and Mrs. Pete F. Harris were recent visitors in the same home.

The Young Adult Sunday School Class had a Valentine Supper at the Church Saturday night.

Charles Wayne Cook of Richmond spent Friday and Saturday nights in the home of Mr. and Mrs. W. T. Cook and reported for National Guard duty in Lynchburg. Wally Sprouse of Buckingham and Janice Carter of Burkeville visited Sunday in the same home.

The regular WMS Meeting will be held Friday, February 21, at 8 p. m. at the Church.

Mr. and Mrs. Roger Morris and girls were Sunday visitors of Mr. and Mrs. John Gager of Farmville.
